The latest from the WHCC Affordable Health Innovations Global Initiative

WHCC Featured Innovator: BP Agrawal, Sustainable Innovations, Keep Drinking Water Flowing in India

Dr. BP Agrawal

In Rajasthan, India's driest region, social entrepreneur and innovator Dr. BP Agrawal believes a "River From the Sky" is the answer to providing arid villages with fresh drinking water. After decades working in research and development for global companies such as General Dynamics, Dr. Agrawal turned his attention to his non-profit organization [Sustainable Innovations](#). One of the company's major initiatives is solving the dramatic water shortage problem in his native Rajasthan, a region in northwestern India with 56 million people and 40,000 rural villages. His efforts during the past five years earned him numerous awards, including the 2010 [\\$100,000 Lemelson-MIT Award](#), presented by The Lemelson Foundation. Dr. Agrawal recently visited MIT to share insights on his work during EurekaFest, a mutli-day celebration designed to empower a legacy of inventors through activities that inspire youth, honor role models and encourage creativity and problem solving.
